

CUSTOMER SUCCESS STORY

DINGLEY RESERVE, CITY OF KINGSTON, VICTORIA

Dingley Reserve gets a brand-new cricket facility!

Another brilliant upgrade out at Dingley Cricket Club for Kingston City Council. The council contacted us again because of our positive past project deliveries and our positive team to liaise with.

Our premium grade Centurion has been used for the pitches with 2 x lanes having the Grassports exclusive cricket training system installed to aid coached in enhancing the up-and-coming stars skills.

It's always a pleasure to work with the team to bring these community facilities up to scratch. Well done to the Kingston City Council on using **100% Australian made** products on this project.
