

# CUSTOMER SUCCESS STORY

DOVETON COLLEGE, VICTORIA

## Doveton College Oval Resurface

Doveton College had an existing worn surface that needed replacement. Grassports was selected due to our extensive positive references from other schools across Victoria and our commitment to the use of Australian made products.

We removed the existing surface and began the regrading and rolling of the existing base for the new surface to be installed. HB240 RS synthetic grass was installed for the oval with rubber and sand infill. The running track and surrounds were surfaced in Court Turf PE a very popular multisport surface in schools.

We finished the project with new portable sports goals. The school and students at Doveton College have said they are thrilled with the result, and it has given them a wonderful outdoor play space for PE and lunch times. We look forward to keeping a strong relationship with the school doing regular maintenance visits.

*'From first conversations with Grassports Australia, the professionalism of the organisation was clear. Their willingness to work with us to design our sports field was exceptional, providing many options, examples, and great flexibility to meet our needs. Their advice and recommendations all made logic sense and showed their passion for delivering a masterpiece.'*

*'Our final product looks amazing, we have 650 happy students, delighted parents, and a team of ecstatic sports teachers.'*

*'Thank you Grassports Australia for a great job, you really have lifted the overall presentation of the school and I would highly recommend Grassports Australia for any works needed'. – Deb Gibson (Principal)*
