

CUSTOMER SUCCESS STORY

LAURIMAR RESERVE, CITY OF WHITTLESEA, VICTORIA

Wickets for City of Whittlesea

Having worked with Grassports before completing the cricket net constructions at Redleap Reserve and AF Walker Reserve, The City of Whittlesea put this project out for tender and selected Grassports again as we offered the best solution for the design and construction for the client at the most reasonable price.

The three bay cricket enclosure includes a power bollard for a bowling machine. Using only 100% Australian made Windsor 35mm synthetic turf and shield wickets to complete the project.

The fantastic facility will be used by the wider community for many years to come.

Fun environments for active students!
