

CUSTOMER SUCCESS STORY

PINEWOOD PRIMARY SCHOOL, MOUNT WAVERLEY, VICTORIA

Pinewood Primary School's Magnificent Oval & 4 Lane Running Track Upgrade

Pinewood Primary School engaged Grassports to complete the 4,950m² oval, running track/long jump upgrade, they knew we are the industry experts with 45+ years' experience and had brilliant in house trained staff to do the job.

We secured the site for optimum safety requirements and begun to remove and dispose of the dry and worn-out natural turf, then completed the excavation and supplied and installed a crushed rock base ready for surfacing.

We installed HB240 for the soccer field finished with sand and rubber infill, then used Court Turf PE for the 4-lane running track, long jump, and surrounds. The surrounds also feature multiple 4-square play areas and mini basketball key. Both surfaces are **100% Australian made** and manufactured within 20K's from the school.

The 825 students and staff are loving the new sports facility, its sure to be an award-winning project! Working with our customers to provide customised, perfect solutions is something we take pride in at Grassports Australia.
