

# CUSTOMER SUCCESS STORY

PORTSEA, VICTORIA

## Stunning Portsea Property Perfect for Entertaining

The client contacted Grassports with an idea of which she said we have exceeded.

The works on the stunning Portsea home included resurfacing the existing tennis court in **100% Australian made Supergrasse ProBounce COOLPlus**, a high-quality surface with COOLplus technology, one of our most natural looking surface options. We constructed a golf putting area which included 9 putting holes with mini flags, and grass mounds for a textured effect using *Syn Lawn Lush* for the chipping area and landscaping surrounds and *Royal Green* on putting area.

The client is thrilled with the finished project and our workmanship throughout. She is excited to show off the new area and have a putt with friends on the new green. Grassports looks forward to ongoing maintenance of the surface and keeping a strong relationship with the client.
